

Product	Maximum Servers or Blades <sup>(1)</sup>	Software License Fee	
		ScaleOut StateServer®	ScaleOut SessionServer™
<b>Development Edition</b> <i>Designed to run on a single server for application development and testing.</i>	1	No charge	No charge
<b>Professional Edition</b> <i>Designed for small server farms which need the high availability and increased performance provided by a two-server, distributed store.</i>	2	\$1,895	\$1,195
<b>Server Edition</b> <i>Designed for server farms with mission critical data that need increased performance and the additional data protection afforded by intelligent replication of stored data.</i>	3	\$3,595	\$2,295
<b>Enterprise Edition</b> <i>Designed for larger server farms which need larger capacity and performance. Includes advanced features such as server caching and dynamic load balancing of workload data across the farm.</i>	6	\$8,995	\$5,695
<b>Data Center Edition</b> <i>Designed for large server farms needing the very highest levels of performance and scalability combined with rock solid availability for the most demanding, mission-critical applications.</i>	10	\$14,395	\$8,995
	16	\$21,595	\$13,495
	24	\$31,195	\$19,495
	40	\$47,995	\$29,995
	64	\$71,995	\$44,995
<b>GeoServer Option</b> <i>Provides scalable replication of stored data across geographically distributed data centers. Requires ScaleOut StateServer or ScaleOut SessionServer.</i>	First two data centers	\$14,995	
	Each additional data center	\$7,495	
<b>Remote Client Option</b> <i>Provides access from a remote server to a networked ScaleOut StateServer or ScaleOut SessionServer store.</i>	6	\$2,995	
	10	\$4,595	
	16	\$6,695	
	24	\$9,295	
	40	\$14,595	
	64	\$21,995	
	> 64	\$300 per Remote Client connection	
<b>Optional Maintenance</b> <i>Optional maintenance is available and highly recommended for all products. Maintenance contracts cover a one year period and are renewable.</i>			25% of the software license fee

(1) Large multi-processor pricing: an additional 25% of the total license fee applies if any server in the farm has 8 or more processors (a core is considered a processor). Maintenance for multi-processor support is 25% of the additional license fee.
